RE: Letter of Recommendation
Dukane Precast

Dear Don,

The purpose of this letter is to serve as a letter of recommendation for Dukane Precast. I have utilized Dukane Precast wall panels for various retail and industrial buildings over the past 15-20 years and have always been impressed with the quality and competitiveness of your wall panels.

More recently, we utilized Dukane Precast for a 4-story parking deck at Harlem Irving Plaza. The project was very complicated because it was a 4-story deck that bridged between 2 retail stores (Target and Best Buy) and also connected to an existing roof top parking deck. The installation and erection of the precast double tees and wall panels had to be carefully coordinated to avoid impact to the existing retail tenants which remained open during the entire parking deck expansion. Despite the complexity of the deck configuration and despite the constraints of the existing condition and tenants, everything was completed exactly as scheduled and the Target wall panels and double Tees at the parking deck were of the highest finish quality.

We strongly recommend Dukane Precast for precast wall or double tee construction and in fact are currently working with them on another parking deck in Mount Prospect.

Sincerely,

James E. Conroy
Director of Development, Chicago
