RE: Dukane Precast- Letter of Recommendation

Dear Grant,

The purpose of this letter is to serve as a letter of recommendation for Dukane Precast. Our company has utilized Dukane Precast wall panels, double tees, beams, and columns on numerous projects over many years. We have always been impressed with both the quality and competitiveness of Dukane Precast.

Most recently we have used Dukane Precast for a Condominium project along the river front in Aurora, a bank building in downtown Naperville and we are currently working with them on a warehouse addition in Hanover Park.

We strongly recommend Dukane Precast for any type of project utilizing their vast array of prestressed-precast products.

Respectfully,

John Brady, MRICS, CPE, LEED® AP
Pre-Construction Director
